

Watch Your Kidneys!

We Will Give You a Few of The Complaints that Diseased Kidneys Lead to and How They Effect Nearly Every Part of the System, so You Will Not be Compelled to Call on Any One to See if Your Kidneys are Effected, and What to Take for a Speedy and Permanent Cure.

Frequent Calls to Urinate
Highly Colored Urine
Brick Dust, (Sediment in vessel.)
Backache
Pain in Joints
Gout, Rheumatism
Liver Complaints

Blood in Urine
Gall Stones
Jaundice, (Skin becomes yellow.)
Puffiness Under Eyes
Swelling of Feet
Dropsy, Lumbago
Bright's Disease

We do not wish you to understand that all cases of kidney diseases as stated above, come in this regular order, but the first named are usually the first symptoms to show that the kidneys are effected and what you may expect later on.

A Trick Of The Trade!

How A Doctor Tried To Knock Out DeBell's Kidney Pills
But Did Not Succeed.

DEBELLS KIDNEY PILLS

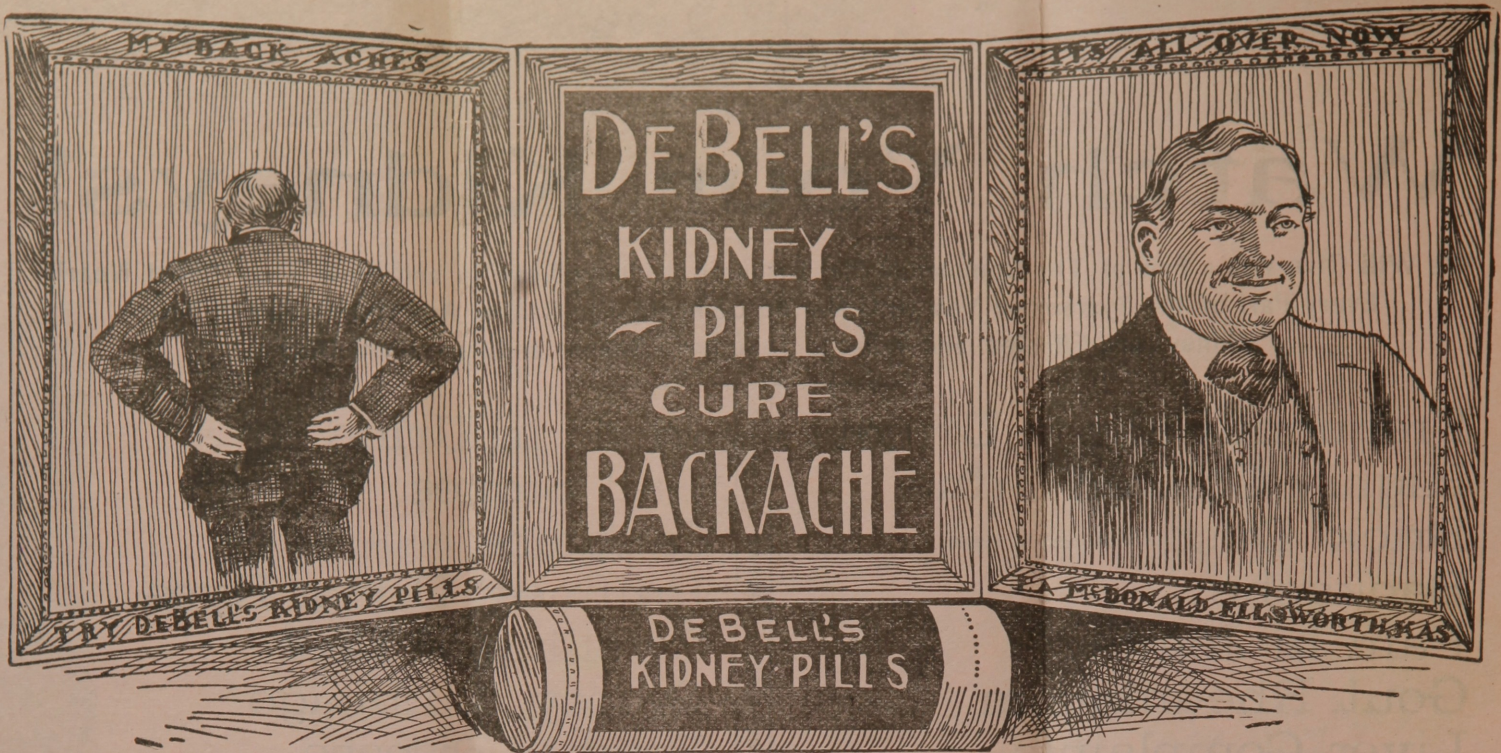

Have Come to Stay and Are the Most Wonderful Kidney Pill on the Market. The Doctors Know It but Do Not Prescribe Them, as They Can Get Nothing Out of it.

J. H. Good of Minneapolis, wrote us under date of Oct. 8th—"We have heard so much lately of DeBells Kidney Pills and the wonderful cures they have made among our neighbors, that I decided to try them. As I had never taken any so-called Patent Medicine, I thought I would be on the safe side and consult our family physician before doing so. I procured a full size box of our druggist and took it up to the doctor. I told him I had been troubled for some time with a dull pain in my back and a brick dust sediment in my urine which was highly colored and smelled quite strong. I then showed him the box of DeBells Kidney Pills, stating I had decided to give them a trial. As soon as he saw the box he burst out into a hearty laugh and told me he was surprised to find a man with as seeming good judgement as I always appeared to have, silly enough to try a fake preparation like that, positively good for nothing except to get my stomach so deranged that it would take weeks for him to get me straightened out again; the fact of the business is you have no kidney trouble, just a little high living and not enough exercise. I will just throw this box of pills in the waste basket and you get this prescription filled at the drug store on the corner; it will fix you all right in a few days.

Well doctor, how much for this prescription? 'Oh, I'll only charge you \$2.00.' I suppose I will have to pay fifty or seventy-five cents for getting this prescription filled? 'Yes, possibly; I know nothing about that.' Well, I will just take that box of pills with me, as I can return it and get the money at my drug store. 'All right, here it is, but don't under any circumstances take them.'

The fact of the matter was, I tried the doctor's medicine for three weeks, but it did me no good. I then began to take DeBells Kidney Pills, one after each meal, and I am happy to state after ONE WEEKS' TRIAL I feel that I am entirely cured. I give you these facts as I do not think the doctor treated you fairly; but I see now his game was to beat me out of two, hard earned dollars; however, it will be a long time before he beats me again."

The only thing we regret in the above is, we were unable to secure the name and address of this doctor so we could publish him as he deserves. We will give the letter in full, as we fear others are taking the same undue advantage of DeBells Kidney Pills. We wish to state however, that this party instead of investing \$2.75 for a common stock prescription that is given in all medical works which proved to be worthless in his case, he could have secured for 25c. a prescription compounded by one of the best physicians in U. S. on diseases of the kidneys, one who has made it a life study and knows beyond the shadow of a doubt, exactly how each ingredient used in the pills acts on the vital parts of the system. Thousands of patients had received lasting benefit from them before he ever conceived the idea of putting them on the market at so small a price as 25c. for a box containing 30 large pills, that no druggist could but up for less than \$1.00. The enormous sales of DeBells Kidney Pills allow us a reasonable profit on them at this small price. What is surprising to us is that any sensible person will pay \$3.00 for an ordinary prescription that any druggist can give him, when he can get a prescription for 25c. that can not be bought for thousands of dollars. However, the time will come when the reading class of the community cannot be hood-winked in this way.

All People Know

**Why DeBell's Kidney Pills Have Attained Such Enormous Sales
In So Short a Time.**

The record made by DeBell's Kidney Pills in the short space of two years during which they have been before the public, has never been equaled by any other preparation for the cure of kidney troubles. It is acknowledged by every druggist in the United States that more of DeBell's Kidney Pills are now being used than of all other preparations for similar troubles combined. Such universal popularity can only be explained from the following reasons:

Because they always give relief in a few minutes.

Because they are not injurious to the health.

Because every form of kidney trouble yield to their influence.

Because they cure Backache, the most common of all kidney troubles.

Because with DeBell's Kidney Pills, Lumbago no longer exists.

Because Sciatica and Rheumatic pains vanish before their magic influence.

Because delicate women who suffer from Backache, bearing down and periodical pains, find DeBell's Kidney Pills a safe and sure relief.

Because DeBell's Kidney Pills never cause nausea, vomiting or derangement of the bowels.

Because they contain Potassium, Nitrate, Uvi-Ursa, Juniper berries and Buchu the safest and most effective diuretics for all kidney troubles.

Because their form is such that a box can always be carried in the pocket ready for immediate use, either for yourself or a suffering friend.

Because finally DeBell's Kidney Pills cure Backache, Weak Back, Diabetes, Rheumatism, Lumbago, Sciatica, Scalding Urine and all similar Kidney troubles as surely as pulling a decayed tooth cures toothache.

G. W. BEGGS, SONS & Co., Chicago:

Dear Sirs.—I have been suffering from what I thought incurable troubles for seventeen years, when I heard of the wonderful cures made by DeBell's Kidney Pills. The first box I took relieved me of all bloating and full feeling in my stomach, from which I had suffered much, and I began to eat and sleep. My back and kidneys were sore all the time and my head felt so I thought I would go crazy. I thank God for the relief given me, and I also thank the makers of DeBell's Kidney Pills, as I owe my life to them. During the seventeen years I was ill I was never told by any doctor that I had kidney trouble.

MRS. ANDREW WHITE,
Salina, Kas.

To Stop Backache.

That is What You Want—Ease, Rest and Relief From Suffering.

It has been said that "Backache will Kill" there is more truth in this than many think. It may not kill directly, but when long continued and left unchecked it is certain to exhaust the nervous system, lessen the vitality and render the person vastly more liable to contract acute or chronic kidney diseases, which as they become more advanced are more liable to prove fatal. DeBell's Kidney Pills stop backache instantly, and prove themselves just as effective in curing similar kidney ailments, such as Rheumatism, Diabetes, Lumbago, Dropsy and Urinary troubles. A week's trial will oftentimes cure mild cases, take a box or two and your kidney trouble will disappear.

No name on earth is so well known, more peculiarly constructed, or more widely imitated than the word De-B-E-L-L-S. It stands out before the eye and fixes itself in the memory. Everyone knows that this word refers to the first kidney remedy that was ever patented or sold in pill form. Nothing imitated ever succeeded in constructing a name possessing the peculiarity of De-B-E-L-L-S though they nearly always adopt names as similar as possible in sound to this.

Why is the name DeBell's Kidney Pills imitated? Why are diamonds imitated? DeBell's Kidney Pills are the most valuable medicine the world has ever known. No other medicine will cure Bright's disease and diabetes. No other medicine has cured as many cases of Rheumatism, Heart Disease, Lumbago, Sciatica, Dropsy, Female Weakness, Urinary and Bladder Complaints, Nervous Diseases and disorders of the blood. And no other medicine has never disappointed.

DeBell's Kidney Pills are the only remedy that ever cured Diabetes. They will cure any disease that arises from the same cause—disordered kidneys, Rheumatism, Neuralgia, Heart disease. Nervousness, Bladder troubles and Female complaints all yield to DeBell's Kidney Pills.

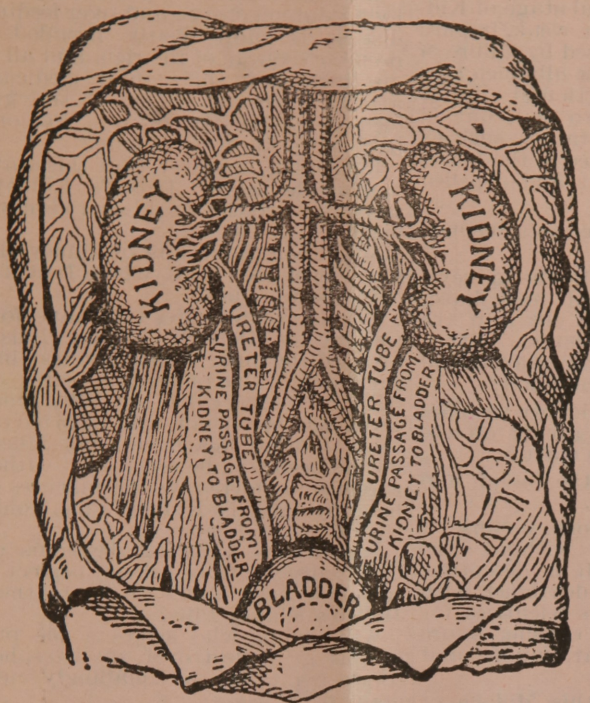

DeBell's Kidney Pills are the only medicine that ever cured Bright's disease. Nor have DeBell's Kidney Pills ever failed to cure Bright's disease. Testimonials from all over the world prove that this is true.

(N.L.W.)

THE KIDNEYS.

**The Above Cut Shows How Closely Connected
The Kidneys Are With All The Vital
Parts Of The Body.**

**They are More Likely to be Effected than Any Other
Organ on Account of Having to Seperate all
Poisonous Matter from the Blood.**

These organs are located in the back part of the abdominal cavity between the lower ribs and the upper border of the hip bone. In shape, they resemble the kidney-bean, each weighing from four to six ounces. The greater portion of the kidney is made up of minute tubes which terminate in the outer part of the organ in extremely minute round sacs, each of which contains a delicate coiled, capillary blood vessel.

It is by these bodies that the elements of the urine are separated from the blood. All the tubes lead toward the center of the organ where they empty into a cavity called the pelvis, which narrows down into a small canal, the ureter, by which the urine is conveyed to the bladder, and carried through another small canal called the urethra.

The urine is chiefly composed of water, which carries in solution a large number of excrementitious principles, the chief of which is UREA, one of the most abundant and most poisonous of all waste elements of the body. When the ureter tube becomes diseased or does not work in harmony with the kidneys, you can readily see this poison is thrown all through the system causing many different diseases.

If it settles in the joints it is called Gout or Rheumatism.

In the small of the back it is known as Backache, etc.

When the kidney becomes thoroughly impregnated with this poisonous secretion and fails to perform its duty this is called Bright's Disease.

How The Old Doctors Used To Scorch Our Fathers And Mothers.

**They are Doing the Same Thing Today, Only on a
Little More of an Up-To-Date Plan.**

The kidneys you will notice, are closely connected with the small of the back and consequently any inflammation of these parts effect the small of the back at once. Forty or fifty years ago our fore-fathers and mothers were effected with the same disease in exactly the same way, and for lack of a better name those wise old doctors called it "stitch in the back" caused they said, by a slight strain in the muscles.

When it got too severe, a mustard plaster was prescribed and a blister the size of the plaster, was the result, which to a certain extent allayed the pain, but did not relieve the cause. The wise and knowing physician patted himself on the back saying, "I have booked \$2.00 on this and will soon have a chance to scorch him again." This is not so however, with

DeBell's Kidney Pills

**They Strike at Once the Seat of the Disease Remov-
ing the Cause, and Giving Immediate
and Permanent Relief.**

Of course we do not claim that a pain in the small of the back is unmistakable evidence that your kidneys are effected, but 99 times out of 100 you can count on this being the case, especially where it is a continuous, dull, heavy pain, and the longer you remain in one position, the more penetrating it becomes as you try to move. Lame back however is only one of the many symptoms that arise from kidney trouble, as they are numerous and the longer it runs the more dangerous the disease.

Rheumatism

Is the more common cause of diseased kidneys for as soon as the ureter (see plate) or the small canal becomes closed or diseased the urea (or all the poison of the system) is thrown back through the system and settles in the joints. Consequently, the patient is usually sent to a sanatorium to have the urea boiled out of the joints and is relieved for the time being, but *the cause still remains*, and the poison again scatters through the system and the Rheumatism appears, either in the joints or the small of the back but usually in the back first as it is nearer the seat of the disease, and each time the pain is more acute and severe.

No one should trifle for a moment with such a dangerous disease, but get a medicine that has cured thousands of others and will cure you. Get it without delay, for the longer the disease runs the more dangerous it becomes, and consequently the more difficult to cure. Don't let any one persuade you to try some other doctor or medicine, but

**Get DeBell's Kidney Pills
And Be CURED At Once.**

If your druggist does not keep them we will send them post-paid on receipt of 25c. in stamps, to any address.

DE BELL'S KIDNEY PILLS

CURE RHEUMATISM.

Faulty kidney work brings on that large family of human miseries, of which rheumatism, lumbago, gout, neuralgia and sciatica are well-known members.

Rheumatism is in the blood in the form of a poison known as uric acid.

It is the duty of the kidneys to filter this poison out of the blood.

When the kidneys are out of condition they cannot do this. The uric acid is distributed by the blood to all parts of the body. It is deposited in the joints, muscles and tissues, where it causes inflammation and pain.

Exposure to cold or wet weather, wrong habits of eating, the excessive use of alcoholic liquors, etc., cause the disease to become active and the pains to be more severe and constantly felt.

It will at once be seen that in order to cure rheumatism the kidneys must be made to cleanse the blood of the uric acid.

This uric acid is simply the worn-out matter of the body, the ashes of the fire that burns when we think, talk or act. It is carried in the blood to the kidneys, where it should be strained out and sent to the bladder. When the kidneys do not do this rheumatism always follows.

Make the kidneys work; make them purify the blood of the poisonous uric acid and rheumatism vanishes.

How can we make the kidneys do this?

By using DeBell's Kidney Pills, the grandest, surest, quickest kidney treatment known to medical science.

The only way to cure rheumatism is to make the kidneys cleanse the blood of the poisonous uric acid.

The only way to make the kidneys cleanse the blood of uric acid is to restore them to perfect health, strength and vigor by using DeBell's Kidney Pills. There can be no doubt, no uncertainty about the result of using DeBell's Kidney Pills. They will cure rheumatism as surely as pulling a decayed tooth cures the toothache.

CURE BRIGHT'S DISEASE.

Bright's disease is the final stage of Kidney Disease. It is due to a weak, impure condition of the blood, caused by failure of the kidneys to filter it. The albumen (the substance that gives strength and vitality to the blood) is permitted to leak out in the urine, while other substances, such as decaying tissues, are retained in the blood instead of being filtered out and expelled from the body.

The blood is thus weakened and poisoned at the same time.

The poisons accumulate in the kidneys, where they are crystalized into hard, sharp-edged masses, which cut into the tender membranes and tissues. Every point at which they do this is poisoned and at once begins to inflame and fester.

Soon the interior of the kidneys becomes a festering, rotting mass, giving off the foulest and most poisonous matter.

This poison gets into the blood and makes it still more virulent.

Bright's disease is insidious, because it exists for a long time without the knowledge of its victim; it is deceptive, for it deludes, even on the deathbed, with hopes of sure recovery; it is relentless, for it devastates the world, causing more death and misery than war, famine and drink combined.

Until a few years ago this Moloch of Misery had foiled every effort of medical science to cure it. No power could check its ravages.

But science has won at last. Bright's disease is no longer incurable. There is one power that can overcome it, wherever they meet. That is the power of DeBell's Kidney Pills.

DeBell's Kidney Pills are the only medicine that has ever cured Bright's disease—it is the only treatment that has never failed.

CURE DIABETES.

Diabetes is nature's protest against high living, intemperance and over-feeding. No disease is more justly dreaded. This peculiar scourge of the rich, and all luxurious livers, is to the regular medical man, utterly incurable. One of the greatest medical authorities says: "Personally, I have never known of a cure."

Remember, however, that this statement was made before DeBell's Kidney Pills were given to the world as a kidney treatment.

Since then the results of kidney diseases have never been fatal, where DeBell's Kidney Pills were used.

The marvelous cures that have followed the use of DeBell's Kidney Pills have aroused the most intense interest in medical circles. One of the first cures of diabetes by DeBell's Kidney Pills was of a prominent physician, who resorted to them after all other treatments had failed, and he had been told he must die. Other doctors have reported wonderful cures of diabetes by DeBell's Kidney Pills, holding it their duty to do so.

Can anyone, knowing the signs of this deadly disease to be present neglect to use so simple, easy and sure a treatment as DeBell's Kidney Pills?

Will anyone who suspects the presence of this grim destroyer, diabetes, hesitate to use what has so unfailingly cured so many other cases?

C. W. BEGGS, Sons & Co., Chicago:

I have been a great sufferer with diabetes and have paid a great deal of money in doctors' bills, without receiving any benefit from their treatment. DeBell's Kidney Pills have done me more good than all the doctors who ever treated me, and I have used only six boxes. I propose taking another course of them shortly, as I am confident that diabetes cannot exist where DeBell's Kidney Pills are properly used.

E. A. McDONALD, Ellsworth, Kas.

CURE DROPSY.

Dropsy is getting to be a very common disease. It is one of the most painful ailments to which humanity is heir.

Dropsy is simply an accumulation of water in the system, out of its proper place. It is a never failing symptom of kidney disease, for the water which drawn from the limbs and bodies of dropsical persons should be accumulated by the kidneys and sent by them to the bladder, to be, from there, expelled from the system in the form of urine.

But when the kidneys are weak or diseased they are unable to carry out this work. The water is flowed back with the blood into the arteries. The obstruction caused by disease in the kidneys exerts unusual pressure upon the arterial contents, the walls of the arteries distend and watery particles ooze through. This is dropsy.

Dropsy is one result of the abnormal condition that causes heart disease, and the two are often found together. Depletion of the system, no matter what causes it, so long as it lowers the vitality, may develop dropsy.

Have you any of the well-known symptoms of dropsy? They are: Puffiness under the eyes; bloating of ankles, limbs and body; change in appearance and character of urine; smothered feeling through excitement or exertion.

Dropsy is undoubtedly present if any of these signs appear. It yields quickly, easily and positively to the action of DeBell's Kidney Pills.

CURE DISEASES OF WOMEN.

Why do women suffer more than men?

Why are women afflicted by a greater number of special diseases than men are?

Simply because the delicate organs of a woman's system are in a thousand fold greater sympathy with her kidneys than a man's are. For this reason, when a woman's kidneys are out of order her other organs feel the effects much more quickly and much more keenly than is the case in the male.

Thus, if a woman's kidneys are out of order, the monthly function of the reproductive organs is disturbed and this creates a long train of ills, any one of which changes a rosy-cheeked, blooming maid, or a buxom, healthy young matron into a wrinkled, feeble, sallow old woman.

The remedy lies in woman's own hands. DeBell's kidney Pills, by stimulating and strengthening the kidneys, keep the whole system in healthy equilibrium and prevent or cure, every one of the large host of female troubles.

Mr. James Mallory, Ashland, Wis., writes: "My eyes felt heavy, my head and back ached; my urine was very dark in color, and I was almost a wreck. After using two boxes of DeBell's Kidney Pills I was cured. My aches have left me, my eyesight is again good and I feel like a new man."

CURE BACKACHE.

Backaches, pains in the back or loins are the commonest symptoms of kidney troubles or kidney weakness. These aches and pains are mostly caused by over-work, over-exertion and worry. Men and women alike are subjected to these pains, but relief is quickly found in the use of DeBell's Kidney Pills. Don't delay the use of these pills; otherwise you are liable to have inflicted upon yourself a deep seated case of kidney disease that may result fatally.

Far more common is it to hear good reports of DeBell's Kidney Pills. Everybody that has ever used them has nothing but good to say about them, and those who have used them are legion. DeBell's Kidney Pills have banished disease from thousands of homes in America. This is indisputable. We have it down in black and white from those who were cured.

Mrs. R. L. McIntyre, Detroit, Mich., says: "I have been troubled with Diabetes for over four years, I had tried every other kind of medicine, but they were of no use to me. I heard of DeBell's Kidney Pills and purchased one box, and found relief. I have used four boxes of DeBell's Kidney Pills and am now cured."

Mrs. Phillip Warner, Des Moines, Ia. writes: "I must say this much. DeBell's Kidney Pills have been a blessed thing to me. I have no more backache, and I rest good, nights, which I thank God for."
